

Bedford County Public Schools

Goals/Continuous School Improvement Plan High School Template 2017-18 School Year

Part I: Vision, Mission, Accountability & Accreditation Information, and Goal Statements

Bedford Science and Technology Center (inclusive of Governor's Health Sciences Academy at BSTC)	
Kim Halterman	
Vision: Vividly paints a picture of the future/leads to a desired outcome.	BSTC leads the division by providing center-based preparation for college, career, and military readiness for all students in Bedford County Public Schools. "Shorthand" Mission and Vision Summary in Daily Use: Real Learning for the Real World
Mission: Is focused on the present and is prescribed by the vision statement (i.e., is the roadmap that will take you to the vision).	Our mission is to prepare students for future success with authentic learning experiences in their chosen fields and to award career credentials honoring these student achievements and experiences. "Shorthand" Mission and Vision Summary in Daily Use: Real Learning for the Real World
Federal Accountability Information	Not available at center/school level
State Accreditation Information	Not available at center/school level
SMART Goal Statement 1:	By the end of school year 17-18 ("Adam"), BSTC will offer at least one additional course and/or program option for BCPS students for year 18-19 ("Brynn"). The course(s) selected

	will meet student career interests as well as workforce demands. The leadership team and the new programs committee notes that the course additions under study are contingent upon staffing availability, VDOE approvals, equipment availability, and, in some cases, other approvals including the approvals of professional boards.
SMART Goal Statement 2:	By the end of school year 17-18 (“Adam”), BSTC will offer at least one additional credential and/or achievement option for BCPS students for year 18-19 (“Brynn”). The credential(s) selected will meet student career interests as well as workforce demands and allow for the further personalization of BSTC courses. Credential(s) selected may be associated with new or existing courses.
SMART Goal Statement 3:	By the end of school year 17-18 (“Adam”), BSTC will continue to build an infrastructure that better facilitates the expansion of work-based learning opportunities across programs. This infrastructure will include staffing support, a survey of existing work-based learning opportunities, and program-by-program/student-by-student expansion. In the current year, efforts will include profiles of selected students/alumni encountering successes.
